- Team management in our location, team work threading reconciliation, presentation of project in whole location.
- I have to report to Asst. Director of Technical.

About the E-Governance Project :

E-governance is the use of information and communication technology (ICT) to enhance information access and the delivery of government services for the benefit of citizens, business partners, organizations and government functionaries.

United Nations Development Program is now promoting 'Good governance' model concept of unhindered and smooth flow of information across the government machinery. Instant access to information for planning, disaster management and infrastructure development in Town Management are essential. This is the project to deal with automation of Government manual work at all Nagar Parishad. In Rajasthan 12th Finance commission is controlling RUIFDCO (Rajasthan Urban Infrastructure Finance and Development Corporation) to manage this project.
