SUMMARY

Results-driven Food Technologist with strong academic training and hands-on internship experience in food safety, quality assurance, product development, and supply chain operations. Proficient in GMP, HACCP, sensory evaluation, and data-driven quality improvement. Adept at collaborating with cross-functional teams in high-paced manufacturing environments. Eager to contribute to innovative food processing solutions and safety compliance initiatives.

CORE SKILLS

- Food Quality Assurance & Compliance
- HACCP & GMP Implementation
- Product Development & Sensory Testing
- Laboratory Testing & Microbiological Analysis
- Regulatory Compliance (FSSAI, ISO)
- R&D Documentation & Technical Reporting
- Supply Chain Fundamentals
- Data Handling (MS Excel, R Programming)
- Team Collaboration & Communication
- Adaptability & Time Management

INTERNSHIP EXPERIENCE

Valley Confectionary Ltd. – Nakuru, Kenya (Production & Quality Intern) AUG - 2024

- Participated in daily production activities including mixing, proofing, baking, and cooling in a high-volume bakery.
- Conducted sensory evaluations and maintained tasting profiles for newly developed SKUs.
- Logged and analyzed quality parameters, improving batch consistency by standardizing critical metrics.
- Ensured compliance with sanitation SOPs and hygiene regulations, supporting audit readiness.

Hindustan Coca-Cola Beverages Pvt. Ltd. – Goa (Quality & Operations Intern) JUL - 2024

- Performed routine quality control tests on finished beverage products, ensuring compliance with FSSAI and ISO 22000 standards.
- Monitored Critical Control Points (CCPs) and documented deviations for continuous improvement in line operations.
- Assisted in procurement and reviewed vendor quotations for mechanical spares, enhancing cost efficiency.
- Gained hands-on exposure to high-speed bottling lines, sanitation protocols, and preventive maintenance schedules.

Mondelez India Foods Pvt. Ltd. – Baddi, H.P. (GMP & Logistics Intern)**JUL – AUG 2022**

- Supported Good Manufacturing Practices (GMP) implementation and conducted floor audits to ensure compliance.
- Coordinated with procurement team to track raw material inventory, reducing supply bottlenecks by 10%.
- Maintained and organized batch records, supplier documentation, and internal audit checklists.
- Observed and learned full-cycle confectionery manufacturing processes, from ingredient handling to packaging.

United Breweries Ltd. – Goa (Brewing & Quality Intern)**FEB - 2021**

- Assisted in monitoring fermentation parameters and quality indices during beer production.
- Performed inventory checks of raw materials, reducing discrepancies in daily material usage logs.
- Recorded data from in-process and final product testing in line with brewery QC protocols.
- Learned and adhered to BRC Global Standards and safety regulations in beverage manufacturing.

EDUCATION**Master of Technology in Food Technology****SEPT 2023 - JUN 2025**

JAIN (Deemed-To-Be University)

- CGPA - 7.36 /10

Relevant Courses: Focused on Food Safety Management Systems (FSMS), HACCP & GMP Implementation, Advanced Food Processing Technologies, Functional Foods & Nutraceuticals, Food Packaging & Shelf-Life Extension, Sensory Evaluation, Food Plant Design & Layout, R&D Methodologies, and Quality Assurance in Processed Foods.

Bachelor of Technology in Food Technology**AUG 2019 - JUNE 2023**

Shoolini University of Biotechnology & Management Sciences

- CGPA - 8.29/10

Relevant courses: Food Microbiology, Food Chemistry & Human Nutrition, Food Preservation Techniques, Unit Operations in Food Engineering, Food Laws & Regulatory Compliance (FSSAI, Codex, ISO 22000), Processing of Cereals, Pulses & Oilseeds, Dairy & Beverage Technology, Food Additives & Contaminants, and Quality Control Testing.

PROJECT**Postgraduate Research****Bangalore**

JAIN (Deemed-To-Be University)

Thesis: Development & Characterization of Lycopene-Enriched Millet-Based Cookies Using Papaya Peel Powder.

- Formulated a functional bakery product incorporating natural antioxidants (lycopene) and dietary fiber sourced from papaya peel powder.
- Conducted physicochemical, nutritional, and sensory evaluations to assess product quality and consumer acceptability.

- Applied experimental design techniques for optimizing ingredient ratios and baking parameters.
- Emphasized clean-label product development and waste valorization, aligning with sustainable food innovation trends.

Undergraduate Research

Himachal Pradesh

Shoolini University of Biotechnology & Management Sciences

Thesis: Studies on Preparation of Instant Soup from Colocasia esculenta Flour.

- Developed a convenience food product using underutilized tuber crop (Colocasia esculenta), targeting shelf-stable and nutritionally enriched soup mixes.
- Performed nutritional analysis, reconstitution testing, and sensory trials to evaluate product performance.
- Standardized processing techniques including drying, milling, and formulation for commercial scalability.
- Integrated value addition principles and functional ingredient utilization to enhance product appeal and market viability.

CERTIFICATION

SWAYAM

- Introduction to Intellectual Property for Engineers
- Novel Technologies for Food Processing & Shelf Life Extension

COURSERA – Supply Chain & Food Industry

- Food & Beverage Management
- Healthy & Sustainable Foods
- Supply Chain Operations, Logistics, Planning, Sourcing, Strategy
- Safety in the Utility Industry

Value-Added Program (VAP)

- GMP/PRP for Food Industry
- HACCP Implementation Training
- FSSAI Licensing, Labelling & Display Regulations
- TQM, 5S & Quality Tools
- Food Safety Management Systems
- Internal Auditor Course
- FoSTaC – Advanced General Manufacturing

SEMINARS & CONFERENCES

6th National Conference – Jnana Chilume 2023, JAIN (Deemed-to-be University)

- Attended technical sessions on advancements in food processing, safety, and quality control. Gained exposure to current industry trends and academic research in food technology.

Alumni Talk: “Operations and Strategy Management in a Food Industry” – March 2024

- Participated in a knowledge-sharing session with industry experts on practical approaches to manufacturing efficiency, cost control, and compliance within food production systems.

Department Technical Seminars – 2023–2025, JAIN University

- Engaged in peer-led and faculty-hosted sessions on topics including food packaging innovations, functional foods, food law updates, and HACCP implementation strategies.

LEADERSHIP & VOLUNTEERING

Technical Student Coordinator – Jnana Chilume 2024, JAIN University

- Coordinated a national-level food tech conference by managing faculty, industry delegates, and student teams; ensured smooth event execution and timely deliverables.

Lab Assistant – New Product Development Lab (2024)

- Assisted with food prototype development, sensory analysis, and lab documentation; supported R&D activities in a cross-functional academic environment.

Event Support Volunteer – Departmental Events (2023–2025)

- Contributed to logistics and planning of academic workshops and food tech exhibitions; ensured registration, material distribution, and on-ground coordination.

Class Representative – M.Tech Semester 1

- Represented student concerns to faculty; coordinated academic updates, improved communication flow, and contributed to a collaborative learning culture.

Best Goalkeeper Award – Interdepartment Football Tournament

- Recognized for outstanding performance, leadership under pressure, and team defense coordination.

3× Interdepartment Football Champion – Shoolini University

- Contributed to consecutive football championship wins, demonstrating teamwork, discipline, and competitive spirit.

LANGUAGES

- English – Full Professional Proficiency
- Hindi – Full Professional Proficiency
- Konkani – Native Proficiency
- Marathi – Limited Proficiency

DECLARATION

- I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
