## SUMMARY

A skilled Postgraduate in Food Science and Nutrition with a strong background in Food science, Nutrition, and Dietetics. Experienced in product development, quality control, and food safety systems such as FSSC 22000, HACCP, and GMP. Proficient in nutritional analysis, documentation, and QMS aspects such as CAPA and deviation management. Eager to apply evidence-based strategies to improve product quality, safety, and regulatory compliance.

---

## EDUCATION

### MSc in Food Science and Nutrition (Aug 2023- June 2025)

- From S.N.D.T. Women's University, Juhu, Mumbai.
- Aggregate CGPA- 8.07

### Bachelor's in Nutrition and Dietetics (July 2020- July 2023)

- S.M.R.K. B.K. A.K. Mahila Mahavidyalaya, Nashik (SNDT Women's University)
- Aggregate CGPA- 9.04

### HSC (May 2018- Feb 2020)

- M.S. Gosavi College of Science and Commerce, Nashik.
- 74.7 %

### SSC (March 2018)

- Nirmala Convent High School, Nashik.
  - 88.80%
- 

## EXPERIENCE

### Internship | Hexagon Nutrition Ltd., Nashik | May 2024- July 2024

#### Quality control and quality assurance intern-

- Assisted in monitoring and evaluating product quality at key stages of production, ensuring alignment with GMP and food safety standards.
- Supported the QA/QC team in sampling and analysis of raw materials, in-process products, and finished goods.
- Gained exposure to audit documentation and compliance processes, contributing to inspection readiness.
- Performed risk assessments and supported in-process quality assurance (IPQA) to ensure consistent product performance.
- Conducted basic chemical analysis under supervision and evaluated packaging materials for compliance with internal quality specifications.

#### R&D intern-

- gained insights on the workflow involved in developing a new product. Assisted in conducting trials for various products. Conducted sensory evaluation and shelf life studies for experimental products.

### Internship | Poona Hospital and Research Centre, Pune | January 2023

Dietician intern- conducted nutritional assessments for patients. Assisted in creating individualized diet plans for patients with chronic conditions such as diabetes, hypertension, and obesity. Monitored patient progress and adjusted dietary recommendations accordingly. Educated patients on proper food choices, portion sizes, and healthy lifestyle habits.

## PROJECTS

### **Development and shelf-life estimation of fruit leather | S.N.D.T. university, Mumbai | June 2024- May 2025**

- Developed a custard apple fruit leather without artificial preservatives and a fortified variant by incorporating a functional ingredient to enhance nutritional value.
- Conducted chemical analysis confirming compliance with FSSAI standards.
- Performed sensory evaluation; both formulations achieved high acceptability scores.
- Carried out accelerated shelf-life testing; monitored microbial growth (TPC, TYMC) and observed no spoilage. Both products demonstrated a projected shelf life of 60 days

### **Chik Stix- development of a ready to eat savoury product | S.N.D.T. University, Mumbai | Aug 2024- Dec 2024**

- Developed a ready-to-eat savoury snack that is wholly vegan, gluten-free and prepared without frying
  - Performed comprehensive proximate analysis—including moisture, protein, fat, carbohydrate, and ash content—to validate compliance with FSSAI nutritional and compositional regulations.
  - Conducted sensory evaluation using a 9-point hedonic scale; the product achieved very good overall acceptability, indicating strong consumer appeal.
- 

## SKILLS

### **Technical Skills**

- Food Safety & Quality Systems: HACCP, FSSC 22000, GMP, FSMS, root cause analysis (RCA), quality documentation, in-process quality control, packaging and labelling compliances.
- Product Development: Food product formulation, shelf-life studies, sensory evaluation, product validation reporting.
- Analytical Techniques: Nutritional analysis, chemical analysis, microbial analysis
- Diet Planning & Counselling: Meal planning, therapeutic nutrition, knowledge about RDA, WHO Anthropometry Software.
- Digital Tools: Proficient in Microsoft Word, PowerPoint, Canva.

### **Soft Skills**

Strong time management, problem-solving, adaptability, teamwork, communication, and leadership abilities.

**Language Skills** - English, Hindi, Sindhi, Marathi.

---

## CURRICULAR ACTIVITIES

- Delivered a session on adolescent nutrition at Rachana Vidyalaya, Nashik.
  - Conducted nutrition education and cooking demonstrations during an outreach at Krishi Vigyan Kendra (KVK), Mokhada.
  - Volunteered in planning and managing Nutrition Week events (2022).
  - Led a training session for Anganwadi Sevika workers in Dapoli on maternal and child nutrition, including diet planning and nutrition basics (2025).
-
