

Curriculum Vitae

Name	: Dr. Ajay V. Chinchkar
Father's Name	: Vikas M. Chinchkar
Mother's Name	: Vedeshri V. Chinchkar
Date of Birth	: 8 th Sept., 1993
Address	: S. No. 186/A, Vidyanagr Lane no.3, Rajbag, Opp. Vishrambag railway station, Warnali road, Sangli-416415 (Maharashtra).
Telegraphic Address /mobile/fax no.)	: 8788361776, 904964845
Email ID	: ajaychinchkar100@gmail.com
State of Domicile	: Maharashtra
Nationality	: Indian
Sex	: Male
Marital Status	: Unmarried/Single
Language Known	: English, Hindi & Marathi

Academic Qualification:

Sr. No.	Exam Passed	Board/University	Subject	Year of Passing	Marks CGPA/ Percent age	Division
1.	Ph.D.	NIFTEM, Sonipat (Haryana)	Food science and technology	2023	7.63	I
2.	Jr. Food analyst	FSSAI	Food Technology	2021	-	Qualified
3.	NET-JRF	UGC	Home science	2018	-	Qualified
4.	NET	A.S.R.B, New Delhi	Food technology	2021	-	Qualified
5.	M. Sc	Shivaji university, Kolhapur (Maharashtra)	Food Science & Technology	2016	72.08%	I
6.	B. Sc	Shivaji university, Kolhapur (Maharashtra)	Biotechnology (Entire)	2014	72.48%	I
7.	HSC	Maharashtra state board of secondary and higher secondary education, Pune	Science	2011	71.67%	I
8.	SSC	Maharashtra state board of secondary and higher secondary education, Pune	Science	2009	78.15%	I

Thesis evaluation and viva voce examination conducted under:

Sl.No.	Deptt.	University/Institute	Supervisor	Status
1.	PhD. (Food science & Technology)	NIFTEM, Sonapat (Haryana)	Dr. Anurag Singh	Completed
2.	M.Sc. (Food science & Technology)	Shivaji University, Kolhapur (Maharashtra)	Dr. Rahul Ranveer	Completed

Industrial Working Experience (2.6 Years)

1) Global Brand Resources Pvt. Ltd., Gandhidham (Gujarat): From Dec. 2023 to Till date: As Plant Manager

Overseeing Production Processes: Responsible for overseeing all aspects of the production processes within the facility, ensuring that production runs efficiently, safely, and meets quality standards.

Quality Assurance: Ensuring that all products meet quality standards and regulatory requirements is a critical responsibility. This involves implementing and maintaining quality control measures throughout the production process.

Health and Safety Compliance: Responsible for ensuring that all operations comply with health and safety regulations to maintain a safe working environment for employees and to produce safe products for consumers.

Inventory Management: Overseeing inventory levels and ensuring adequate stock of raw materials and finished goods is maintained to meet production demands while minimizing excess inventory and associated costs.

Equipment Maintenance and Reliability: Ensuring that all production equipment is properly maintained, serviced, and operated to minimize downtime and maximize operational efficiency.

Customer Relations: Ensuring that customer requirements are met and addressing any concerns or issues promptly to maintain customer satisfaction and loyalty.

Strategic Planning: Contributing to the development and execution of long-term strategic plans for the plant and providing input on key decisions related to capacity expansion, technology investments, and market opportunities.

2) Nurture Fields Industries Pvt. Ltd., Suryapet (Telangana): From Feb 2023 to 10 Dec. 2023: As Operations, Quality & Research Officer

Roles & Responsibilities:

Creating, Launching new product. Make the entire plant operational.

Support the team to meet & exceed customer satisfactions.

Participate in testing and suggestions for improvement. Understanding the operational capabilities.

Crating SOPs for the products.

Making connections with different vendors, suppliers & stakeholders. Expert food trend knowledge including tracking food news/product reviews.

Attendance at selective food exhibitions, seminars that could be used across the business.

Experience in developing millet-based products (product for lactating mothers & anemia), nutrition bars, flavored peanut butters, nutrient rich makhana, smoothies etc.

Working on company briefs to deliver innovative solutions to stretch our categories.

Any other duties as reasonably required.

3) Hira Foods, Satara (Maharashtra): From 15th March 2017-15th Aug. 2017: As QA Officer

Roles & Responsibilities:

Develop and improve products. Implement & monitor QA system.

Inspects and ensures high quality of product which matches pre- determined specifications.

Investigates customer complaints, prepares reports, compiles and maintains records on product quality status, and all tests and inspections that have been conducted.

Implements food tests and maintains schedule of testing.

Inspects the facility to ensure a high level of cleanliness is maintained in order to meet food safety requirements.

Determines methods to resolve any quality or food safety compliance issues that arise.

Inspection of equipment to meet quality control standards.

Provide recommendations on procedures, standards and equipment to maintain product quality. Assist with maintaining the plant and equipment according to determined standards as required. Assist the Production Supervisor with hands on operational activities when needed.

Ensuring production requirements are met.

Ensure that all data for the production is completed and meets traceability requirements.

4) Shree Venkateshwara food industries, Jaysingpur (Maharashtra): From 1st Aug. 2016 to 14th March 2017: As Jr. Quality Officer

Roles & Responsibilities

Generates quality reports.

Maintains HACCP documents and other quality reports.

Assists QA manager in reviewing and updating the HACCP manual.

Assists QA manager in third party hygiene audits and supplier visits.

Creates product labels in accordance to requirements.

Schedules and keeps track of product testing.

Maintains and calibrates QC tools.

Assists QA manager in data collection and analysis.

Random check of factory cleanliness, personnel hygiene, and storage temperatures.

Verifies critical control points.

Evaluates retention samples.

Reports to QA manager any discrepancies or non-conformances

Provides recommendations for system improvement

Thesis work:

- **Ph.D. (Food science & technology) Research Title:** Research and thesis submission on the topic "Utilization of Polyvinyl Acetate as a Coating Material for Preservation of Fruits & Vegetables".

Research area in Ph.D. programme:

- **M.Sc. (Food science & technology) Thesis Title:** Research and thesis submission on the topic "Preservation of Juice by Ohmic Heating".

Research Skill:

- Well versed with **Statistical analysis methods** for scientific and clear representation of research experiments.
- Have keen interest in **formulation, planning & execution of experiments.**
- Fast learner and innovative thinker.

Industrial trainings:

At Ghodavat Group of Industries Pvt. Ltd. Chipri, Jaysingpur, Maharashtra

- Studied manufacturing of Various Oils
- Learnt about Packing and Quality Control.
- Studied about overall Production management and working.

At Srimi Foods Park Pvt. Ltd. Mogilli Village, Chittoor, Andhra Pradesh

- Studied Mango Processing (Specifically "IQF")
- Learnt processing starting from raw material handling to product manufacturing.
- About maintaining personal hygiene.
- Packaging and Quality Control.
- Dispatch methodology

Two weeks FDP/Short term course on **Handling of analytical instruments in Basic Science** organized by Central Instrumentation Facility at Jamia Millia Islamia, New Delhi from 23th February to 14th February 2020.

1 month **research training on animal handling** (01/04/2021-30/04/2021) at of NABI under the supervision and directions of Dr. Mahendra Bishnoi (Scientist-E, NABI), Dr. Koushik Mazumder (Scientist-E, NABI) and Dr. Anurag Singh (Associate Prof., HBTU, Kanpur).

Certification training:

- Food Safety Supervisor Manufacturing (Level 2) & COVID- Food Safety Supervisor Certificate of Competence (Credential ID AMACOVID2031830670)
- HACCP level 3 (Credential ID 98984904/162403424)

Declaration

I hereby declare that above information furnished by me is true to the best of my knowledge and belief.

Date: 31.07.2024

**Dr. Ajay V.
Chinchkar**
