SUMMARY

Food technologist with a strong commitment to research and development, nutraceutical formulation, and functional ingredient analysis. significant experience in market research, protein extraction, and uses of plant proteins. Focused to creating novel, safe health supplements that comply with legal requirements and consumer demands. versatile and committed to lifelong learning in the rapidly changing nutraceutical industry.

TECHNICAL SKILLS AND LABORATORY SKILLS

- Market Research & Regulatory Awareness
- Cross-functional Collaboration
- Documentation & Report Writing
- Product Formulation & Development
- Protein Extraction
- Kjeldahl apparatus
- Hygiene and safety parameters in food industry.

CERTIFICATES

- ♦ Product design and Development | NPTEL '21

EXTRA CURRICULAR ACTIVITIES

- ♦ Attended International Conference on Current Research and Approaches in Food Technology (CRAFT-2020), 14-15 | Feb'20.

STRENGTHS

- A strong academic background in food science and technology.
- Research experience with protein applications and

alternative food emulsions.

- Capability to swiftly adopt new processes and technologies.
- Focused on the details and dedicated to maintaining the quality and safety of food.

EXPERIENCE

NUTRACEUTICAL EXPERT

Daredia Life Sciences Pvt Ltd., Hyderabad, IN

Mar' 25- Apr' 25

- Spearheading research and development for innovative nutraceutical formulations tailored to current health trends and functional requirements.
- Conducting extensive market research to assess consumer demand and evaluate competitive products.
- Designing tentative formulations based on plant-based ingredients, bioactive compounds, and regulatory compliance.
- Collaborating with cross- functional teams and contributing product documentation and label claims.

ASSISTANT TEAM LEADER

Mycaptain, Bangalore, IN

Dec' 23- Nov' 24

- Led and managed daily business operations to ensure efficiency and productivity.
