Ambitious Food Technologist with a strong interest in product development within the food industry. Eager to leverage skills and knowledge to drive innovation and enhance product quality, while ensuring stringent quality standards in quality assurance/control roles. Dedicated to advancing food science and technology, with a passion for contributing to research and development initiatives.

EXPERIENCE

FEBRUARY 2024 – APRIL 2024

QUALITY CONTROL INTERN, GRIFFITH FOODS

- Conducted comprehensive analysis of raw materials and finished goods within the dry blends, sauces, and dressing lines upholding quality standards.
- Verified supplier's Certificates of Analysis (COA) against company specifications, facilitating the approval of raw materials for production and finished goods for dispatch after rigorous documentation on the ERP system.
- Gained hands-on experience operating advanced laboratory equipment, such as moisture analyzers, Hunter color meters, viscometers, and refractometers, broadening my technical skill set.
- Acquired proficiency in various quality analysis techniques including granulations for particle size analysis and titration for salt, acidity, and ascorbic acid analysis enhancing the accuracy of product quality assessments.
- Maintained comprehensive documentation related to employee safety, HACCP, GMP, GLP, sanitation training and more, ensuring the adherence to regulatory standards.

OCTOBER 2021 – JULY 2022 & AUGUST 2023 – NOVEMBER 2023

R&D CHEF, LUCKY VEGAN DELI

- **Research & Development:** Took part in development of plant-based cream cheese, spreads, salads, dressings, and dips from concept to launch. Conducted sensory evaluations and customer feedback to optimize flavors, creating highly popular products. Analysed market trends to identify opportunities for NPD.
- **Chef Responsibilities:** Managed all stages of food production, from pre-production to dispatch. Curated recipes for the Du Jour menu, tailored to customer dietary preferences, enhancing satisfaction and loyalty.
- **Customer Communication and Order Management:** Handled customer interactions, orders, and data management using Excel. Managed stalls at flea markets, boosting sales and brand marketing.
- **Logistics and Inventory Management:** Optimized delivery routes and schedules, ensuring timely product delivery. Managed inventory and raw material sourcing for continuous production.
- **Food Safety and Quality Control:** Maintained food safety and quality checklists, ensuring industry compliance.

EDUCATION

2022 – 2024

MASTERS OF SCIENCE IN FOOD TECHNOLOGY, NIMS UNIVERSITY

Comprehensive studies subjects such as: Food Safety Management and Laws, Food Design plant and Layout, Fermentation Technology, Dairy science, Bakery and Confectionary Technology, Meat & Poultry, Food engineering, etc.

2018 – 2021

BACHELOR OF SCIENCE IN COMPOSITE HOME SCIENCE, MOUNT CARMEL COLLEGE

Comprehensive studies on subjects such as: Food Science, Hotel Management, Nutrition, Dietetics, Human Physiology and Development, etc.

SKILLS

- Effective communication
- HACCP, GMP, GLP, GHP
- Reporting and organizing
- Documentation
- Adaptability
- Culinary skills
- Product development
- Analytical thinking
- Sensory analysis
- Attention to detail and researching

PROJECT

Title: Formulation and Assessment of Gluten Free Baking Premix using Raw Banana Powder and Pearl Millet Flour.

In this project, alternative flours and functional ingredients were investigated and integrated to enhance gluten-free baked goods. Comprehensive literature reviews, experimental trials, and analysis of ingredient effects on texture, taste, and nutrition were conducted. This process resulted in the development of several well-received gluten-free formulations with improved texture and nutritional benefits.

PUBLICATIONS

Access: [Comprehensive Insights into Gluten related disorders: A Review](#)

The review paper explores the biochemical properties of gluten, its impact on gluten-related disorders, and potential dietary interventions. It delves into the complexities of celiac disease, non-celiac gluten sensitivity, wheat allergy, and related conditions, while also examining current diagnostic challenges and future research directions.

CERTIFICATIONS

- ✓ ISO 22000 FSMS Lead Auditor, Udemy (<https://www.udemy.com/certificate/UC-9491b8e4-447d-4175-965e-ca6d2fb06423/>)
