Work Experience

Executive Quality Assurance and Quality Control

[Aug 2022 - Present]

Symega Food Ingredients Private Limited

City: Kolenchery, Kerala

- Conducted comprehensive quality control and assurance activities, ensuring products meet strict quality and safety standards.
- Performed sensory evaluations of raw materials and finished products, assessing attributes such as taste, texture, and aroma to ensure consistency and quality.
- Executed physical and chemical analyses of food products, using techniques to determine moisture, pH, viscosity, color, and other key parameters.
- Carried out RM (Raw Material) and PM (Packaging Material) analysis to verify conformity with specifications and to prevent potential quality issues.
- Operated and calibrated a range of laboratory instruments, including Colorimeter, Brix Meter, Viscometer, and Texture Analyser, to ensure precise and reliable test results.
- Attended customer audits, providing detailed documentation and ensuring compliance with quality standards, while addressing any quality-related concerns or queries.
- Collaborated with cross-functional teams to optimize production processes and implement corrective actions for continuous quality improvement.
- Maintained thorough records of quality testing and inspections, ensuring traceability and compliance with internal and external regulatory requirements.

Senior Production Supervisor

[2019 - 2022]

Lazza Ice Creams

City: Palakkad, Kerala

- Managed and controlled production processes to ensure efficient and smooth operations, meeting daily and weekly production targets.
- Developed and implemented effective production plans, coordinating with procurement and logistics teams to ensure the availability of raw materials and optimal use of resources.
- Conducted regular quality control checks throughout the production process, ensuring compliance with established standards and identifying areas for improvement.
- Monitored production metrics and key performance indicators (KPIs) to analyze performance and drive continuous improvement initiatives.
- Optimized production workflows by identifying bottlenecks and implementing corrective actions to improve throughput and reduce downtime.
- Ensured adherence to safety and regulatory standards within the production environment, fostering a culture of safety and quality among team members.
- Maintained comprehensive documentation of production activities, quality control checks, and process improvements to support audits and continuous improvement efforts.

Academic Projects

- Pharmacology and Assay of Paracetamol Tablet in Kerala State Drugs and Pharmaceuticals.

Certificates

- Highfield Level - 3 Award in HACCP for Food Manufacturing (RQF)

Language Proficiency

- English
- Malayalam
- Hindi
