

NIVEDYA VINOD

Nivedyaivya@gmail.com 8281735431 Kerala

SUMMARY:

Postgraduate in Food Science & Technology seeking a suitable position in the field to kick start a career. Passionate in new product development, innovative and strong commitment to R&D practices. Proficient in quality control practices, hands-on experience in producing safe and high-quality food products.

WORK EXPERIENCE:

Research Intern: Perfetti Van Melle

Feb 2024 – Present

- Involvement in handling process validation for the Mentos line - such as conducting validation tests, analyzing data, identifying areas for improvement, and implementing corrective actions.
- Active participation in trial runs on launching new product under MENTOS - COLA, ALPENLIEBE ECLAIRS 4.8g candy with 20% choco filling and CHUPA CHUPS 1m belt
- Strong understanding on process flow and quality analysis of different confectionary products

Internship: Frontline Exports - Ernakulam, Kerala

Dec 2021 - Jan 2022

- Knowledge improvisation in pre-processing, processing, packaging, storage and distribution sector in marine industry

Industrial visits

- Harrison Malayalam Limited, Wayanad, Kerala - Tea Manufacturing Unit - December 2019
 - Quality Analysis of Drinking Water: Week long study along with industry experts - January 2022.
 - Panda Foods - Wayanad, Kerala: Spice processing and packaging industry - February 2022.
-

EDUCATION:

Master of Science in Food Science and Technology

Jul 2022 - Jun 2024

Central University of Punjab (Central University)

(Result awaited)

- Thesis on "Root cause analysis of defects in soft chew candies using statistical and control tools".

Bachelor of Science in Food Technology

June 2019 – May 2022

with PHYSICS and CHEMISTRY as complimentary subjects

SAFI Institute of Advanced Study (Calicut University)

Passed in First Class with Distinction

ADDITIONAL INFORMATION:

- **Technical Skills:** Project Management, Data Analysis, Proficient in Microsoft Applications
- **Languages:** English, Hindi, Malayalam and Tamil.
- **Certifications:**
 - Level 3 HACCP for Food Manufacturing
 - Level 4 International Award in Food Safety Management for Manufacturing
 - Stanford Introduction to Food and Health Certification(online) from Stanford University

PROJECTs:

- 'Optimization and Root Cause Analysis of Defects in Candy Production' using statistical and control tools; focusing on vital defects and their root causes through multiple regression analysis and control charts (Minitab).
- Accelerated Shelf Life and Durability study of soft chew candies
