## PROFESSIONAL SUMMARY

Results-oriented professional with expertise in Foods and Nutrition, dietary planning, and product development. Skilled in nutrition assessment, client education, and functional food innovation. Adept at formulating nutrient-rich products, conducting quality and sensory analysis, and integrating sustainable packaging solutions. Passionate about promoting health and wellness through evidence-based nutritional strategies. Ready to leverage technical and analytical skills to contribute to the food and nutrition industry's growth and success.

## PROJECTS

### • Bio Film and Product Development

- Development and Quality Analysis of an Edible and Sustainable Soup Mix Pouch Formulated a biodegradable, edible pouch using Palmyra and Banana Peel Powder as a diabetic-friendly alternative to plastic.

### • New product Formulation

- Lotus Seed Choco Balls – Developed and analyzed the formulation, sensory, and quality attributes of chocolate-based energy balls enriched with lotus seeds.
- Bougainvillea Grape Squash – Formulated and conducted quality evaluation of grape squash infused with Bougainvillea flower extract for enhanced nutritional benefits.

### • Community Nutrition Projects

- Nutritional Profile & Occupational Health of Textile Workers (Tirupur, Tamil Nadu) – Assessed dietary intake, health risks, and nutritional status of adult textile workers to identify key intervention areas.
- Nutritional Status of Elderly (Coimbatore, Tamil Nadu) – Conducted nutritional assessment of elderly individuals (60-80 years), evaluating dietary patterns and health status.

### • Dietetics Case Studies

- Madras Medical Mission, Chennai – Hands-on experience in clinical dietetics, assessing and planning therapeutic diets for patients with diverse medical conditions.
- Chennai Meenakshi Multispeciality Hospital – Managed dietetic case studies, focusing on nutrition interventions for hospitalized patients.
