Master's of Science
81.13% | 2023 |

SKILLS

- Hardworking
- Communication
- Basic knowledge of computer(MS Word, PowerPoint, Excel)
- Phytochemical Screenings
- Basic Microbiology Techniques

PROJECTS

- **M.Sc. Dissertation Project Work**
The topic of my dissertation is "Phytochemical screening and antibacterial activity of Asparagus racemosus leaves". During the period of my dissertation work I have worked on antibacterial activity of Asparagus racemosus plant. I obtained phytochemical extracts in different solvents then investigated the antibacterial activity of different plant extracts against several bacterial strains and further compared their activity with respective antibiotic discs. All through the period of my master dissertation, I learned biochemical methods including handling lab equipments, sterilization techniques, plant extraction and microbial assay.

ACTIVITIES

- Attended one day National Seminar on Novel Therapeutics: Relevance to Cancer sponsored by DBT, Govt. of India, held on August 2, 2022, organized by Department of Biochemistry, University of Allahabad.
- Attended one day symposium on "SCIENCE AND HUMANITY" & National Science Day Celebration, held on 28th February 2023, jointly organised by Faculty of Science, University of Allahabad & The Indian Science Congress Association, Allahabad.
- Attended and participated in poster presentation session of the National Seminar on Life Style Diseases: Prevention and Cure, held on March 22, 2023, organized by Department of Biochemistry, University of Allahabad.
- Participate in One-day "Job Oriented Training Program In Clinical Research" on 16/12/2023 conducted by CLINI FUTURE CLINICAL RESEARCH SOLUTIONS, Kerala.

- Participate in Science Dialogue Series(insightful webinars) in LinkedIn organised by Gopal Jee Gopal(Assistant professor, C.G Bhakta institute of Biotechnology, UKA Tarsadia University, Gujarat).
- “Biosensor : An Interdisciplinary Research Area” delivered by Dr. Tanu Bhardwaj on 28th July, 2024.
- “Biomanufacturing of Microbial Metabolites” delivered by Prof. Kashyap Kumar Dubey on 25th July, 2024.
- “Spectroscopic Insights into Biomolecular Structures” delivered by Dr. Poonam Mishra on 20th July, 2024.
- “Functional Nucleic Acids and their role in Diagnostics” delivered by Dr. Tarun Sharma on 3rd August, 2024.
- “Genetics and Cancer : From Cause to Cure ?” delivered by Dr. Sonal Bakshi on 12th August, 2024.
- “Role of Flow Cytometry in Medical Biotechnology”, under the banner of Science Dialogue Series, delivered by Dr. Ishan Pandey on 18/10/2024.
- “Bio-Hydrogen : From Carbon neutral to Carbon negative Fuel” delivered by Dr. Sudheer Pamidimarri on 5th September, 2024.
- Completed One Day Short Course on "Bioinformatics" on Oct 12,2024 organised by Genomic Institute Inc. | USA.
- Attended one day International Symposium on "World food day" (16th of October,2024) organised by Global Center for Youth Development under the agies of Global Forum for Sustainable Rural Development in collaboration with St. Xavior's College Ranchi (Dept. of Botany).
- Attended One Day National Workshop on "How to write a research paper" on 18/10/2024 jointly organised by TEC, ICAR- IVRI, Pune(Maharashtra) & Indian society for veterinary surgery (ISVS).
- Attended One day International Symposium on "World Pneumonia Day" (12th Nov,2024) organised by Global Center for Youth Development & St. Xavior's College, Ranchi, in collaboration with the Microbiologists Society, India & Global Center for Public Health care & Management.
