Education

**M. Tech (Industrial
Biotechnology) 2020-2022**
Delhi Technological
University, New Delhi
Percentage - 76 %

**B. Tech
(Biotechnology)
2016-2020**
IILM College of
Engineering &
Technology,
Greater Noida
Percentage - 69 %

Intermediate 2014
Children's Academy ,
Ghaziabad
Percentage - 67%

High School 2012
Children's Academy ,
Ghaziabad
CGPA - 5.8

Key Skills

Formulation &
Development
Quality control
Quality Assurance
Pcr, Dna Extraction,
Gel Electrophoresis
DNA Isolation
Chromatography &
Spectroscopy
Bioinformatics Tools
Product Engineering

Objective

To leverage my expertise in formulation and development of supplements and organic products in the FMCG and beverage sector, while ensuring compliance with industry standards such as HACCP, ISO, GMP, and QMS to drive innovation and organizational growth.

Awards

Junior Scientist of the Year Award By ICAR-IGFRI
Jhansi, UP

Experience

February 2024 – Present

Production Plant Head • Protein Farm
Formulation and Development • Protein Farm

- Led the formulation and development department for innovative supplement products
- Successfully developed and launched a range of products, including:
- **Pre workouts:** Weird, Supercharge, Limitless etc.
- **Proteins:** One whey, Isolate whey etc.
- **BCAA:** Multiple flavor variants tailored to diverse customer preference.
- Managed production engineering, ensuring efficient processes and adherence to quality assurance standards for premium products.
- Comprehensive knowledge of **Internal and External Audits**, including **HACCP, ISO 9001, ISO 22000** certifications as per **FSSAI** and nutraceutical standards.
- Ensured strict quality and safety standards for compliance and trust.

August 2022 – January 2024

QC/QA Executive • Uptime Nutrition
Lab technician • US Healthcare Industries

- Extracted proteins and analyzed their quality and concentration to meet product specifications.
- Worked on the formulation and development of new, high-quality supplement products.

April 2021 – August 2022

Production Engineer • Bhatia Wine Merchant

- Ensured purification and selection of high-quality raw materials for liquor production.
- Gained expertise in alcohol production techniques and quality optimization strategies.

Personal Projects

- Plant-based Biochar for Environmental Remediation : Synthesis Characterization & Application
- Characterization of β -Satellite In Begomovirus Infected Capsicum Annum Plant
- Development of Biofertilizer using Eichhornia Crassipes as Starting material.

Achievements

- Published a paper in IJTSRD journal on journal “Diagnosing Covid-19 By CRISPR Technology”.
- Published a paper in IJAEM journal “Jamun Medicinal Impact and Benefits (S. cumini)”.
- Presented at the National Conference Biogenesis – Insights and Innovation in Biotechnology (2017) held at IILM-CET, Greater Noida.

Personal Information

Father Name – Mr. Dan Bahadur Singh
D.O.B - 16.03.1996
Languages - English, Hindi
Gender - Male
