PROFILE

To obtain a challenging and rewarding position that utilizes my skills and knowledge in chemistry, and provide opportunities for professional growth and development in a dynamic and innovative environment.

EDUCATION

MSC Chemistry

University Of Kerala, First class (4th rank)

2022 – 2024

KOLLAM, KERALA,
India

BSC Chemistry

University of Kerala, First Class

2019 – 2022

KOLLAM, KERALA,
India

SKILLS

TECHNICAL SKILLS

- Analytical chemistry knowledge
- instrument proficiency
- Teamwork and independence
- cross functional collaboration
- commitment to safety, quality practices, accuracy

SOFT SKILLS

- Teamwork and collaboration
- Independent work
- Initiative-taking Multitasking
- Scientific communication
- Attention to detail

EXPERIENCE

Intern

CUSAT

08/2024 – 11/2024

Ernakulam, India

- Synthesized indole carbazole derivatives using various organic synthesis techniques.
- Utilized chromatography techniques (TLC, HPLC, GC-MS) and analytical techniques (NMR, IR, Mass spectroscopy) to purify, analyze and characterize the structure and properties of the compound

Project intern

CSIR-NIIST

04/2024 – 06/2024

TVM, Kerala, India

- As part of my master's thesis, I had the opportunity to work on a project titled "Investigation on Ilmenite Reduction Process and Synthesis of Nano Titania."
- This project involved a comprehensive study of the reduction process of ilmenite, a mineral used in the production of titanium dioxide, along with synthesized nano titania, which has photocatalytic, sensor, and biomedical applications.
- My responsibilities included designing and conducting experiments, collecting and analyzing data, and drawing meaningful conclusions.
- Through this project, I gained hands-on experience with various analytical techniques, including XRD, SEM, and TEM, and developed a deep understanding of the reduction process of ilmenite.

Internship

CSIR-NIIST

04/2023 – 05/2023

TVM, Kerala, India

- Extract and analyze lithium from spent lithium-ion batteries.
- Got explored various characterization methods like XRD, IR Spectroscopy, ICP-MS etc.

LANGUAGES

Malayalam

English

Hindi

CERTIFICATES

Introduction to Pharmacovigilance

Level 1

Introduction to Good Manufacturing Practices

Level 1

HACCP Hazard Analysis Critical Control Point

Level 2

INTERESTS

Chemist | Research associate | QC/QA Chemist | R and D chemist | Lab analyst
