EDUCATION

- B.Tech (Dairy Technology) –
MPUAT, Udaipur | 2001

TRAINING & CERTIFICATIONS

- ERP (TCS) – Material Management
Implementation
- Internal Auditor Training – ISO 9002
& ISO 14001
- Total Quality Management (TQM) &
Total Productive Maintenance
(TPM) – 3-day workshop
- Quality Management System
Workshop – DNV, Baroda
- Seminar on TPM – Ahmedabad
Management Association

RAJKUMAR PRAJAPAT

SR. PRODUCTION MANAGER
AHMEDABAD

PROFESSIONAL SUMMARY

24 Years of Progressive Experience | Production Head

Results-driven and performance-focused Production Leader with 24 years of expertise in large-scale plant operations, production planning, quality assurance, and process optimization in the dairy and ice cream industry. Adept at managing end-to-end production processes with a capacity of 2 lakh liters/day, while maintaining stringent hygiene and food safety standards. Proven ability to drive productivity, minimize downtime, reduce waste, and ensure efficient manpower and resource utilization.

WORK EXPERIENCE

HAVMOR ICE CREAM LTD. (A Lotte Confectionery Company, MNC) Jan 2011 – Present

Role Production head (Sr. Production Manager)| Ahmedabad

- Direct end-to-end production operations in a state-of-the-art ice cream plant with a daily capacity of 2,00,000 liters, ensuring consistent output while maintaining strict food safety and hygiene standards.
- Supervise all stages of ice cream manufacturing including mixing, pasteurization, batching, freezing, extrusion, candy production, and packaging. Develop and execute daily, weekly, and monthly production schedules to meet customer demand, optimizing labor and equipment resources.
- Oversee inventory control for raw materials, semi-finished products, and packaging items while ensuring minimal wastage and cost control. Plan and coordinate preventive maintenance schedules of machines to minimize unplanned downtime and ensure continuous production. Conduct root cause analysis (RCA) for production issues and implement corrective and preventive actions (CAPA) to avoid recurrence.
- Work closely with R&D for trial runs of new product varieties and flavors, including stickless, extrusion, and candy products.
- Lead cross-functional coordination among QA, Maintenance, Stores, and Logistics teams to streamline plant efficiency.
- Monitor and analyze KPIs such as yield %, line efficiency, machine utilization, and labor productivity for continuous improvement.
- Implement and enforce compliance with ISO 22000, FSSAI, and company SOPs to maintain world-class hygiene standards.
- Provide training and guidance to production teams to improve technical skills and adherence to safety protocols.
- Contribute to plant expansion projects including equipment selection, layout design, and commissioning of new lines.

CORE COMPETENCIES

- Strategic Production Planning & Line Optimization
End-to-End Ice Cream
- Manufacturing Operations
Quality Control (ISO 22000, ISO 9000) & Food Safety
- Cross-functional Team Leadership & Manpower Planning
Plant Expansion & Layout
- Development
SCADA, Auto CIP Systems, Freezer and Packaging Machinery
- SAP, ERP (TCS Systems), Material & Inventory Management
TPM, TQM, ISO Documentation &
- Audit Compliance

TECHNICAL SKILLS

- Systems: SAP, ERP, SCADA
- Software: Microsoft Word, Excel, PowerPoint
- Platforms: Windows, UNIX

- Ensure 5S, GMP, and TPM practices are followed rigorously across the plant to enhance safety and cleanliness.
Maintain documentation for internal audits, customer audits, and certifications.
- **Key Achievements:**
Successfully led the installation and commissioning of new production lines, increasing capacity and variety offerings.
Reduced production downtime by 20% through efficient maintenance planning and real-time monitoring.
Improved yield and material utilization by optimizing batch formulations and minimizing process losses.
- Spearheaded cost-saving initiatives in energy and material usage, contributing significantly to bottom-line savings.
Achieved consistent compliance in third-party audits including FSSAI and ISO 22000 audits with excellent scores.

AMUL – MOTHER DAIRY, Gandhinagar (GCMMF) Sep 2001 – Dec 2010
Role: Senior Production Officer

- Managed day-to-day production activities in Asia’s largest dairy processing plant, specializing in ice cream, UHT milk, butter, and other dairy products. Led the operations of a 1,00,000 LPD ice cream plant, overseeing batching, freezing, blending, and final packaging processes.
Planned and managed material flow, stock levels, manpower rosters, and production schedules using ERP.
- Implemented SAP for production and material data management across 5 union dairies, collaborating with TCS teams during data migration.
Coordinated with maintenance and QA teams to ensure equipment functionality and compliance with safety norms.
- Conducted energy audits and implemented cost control measures that reduced utility consumption significantly.
- Ensured adherence to ISO 9000:2000, GMP, and HACCP standards across production operations.
Facilitated employee skill enhancement programs and process standardization for consistent product quality.

- **Key Achievements:**
Key member of SAP implementation for the entire ice cream division across federations.
Played an instrumental role in process automation and documentation as per ISO standards.
- Reduced material loss and improved overall process yield by initiating line balancing techniques.
