

A versatile professional having 20+ years of profound experience in **Quality Control (QC), ISO Standards (ISO 9001, 14001, 45001, 22000), Digital Transformation, Quality Assurance, Certifications like KOSHER & HALAL, Laboratory Set up and Validation, Equipment Validation, Vendor Qualification & Development, Auditing & Compliance, CAPEX/OPEX Planning, Process Optimization, Method Validation, Resource Allocation, Stakeholder Management, Change Management, and Team Management** in an organization of high repute.

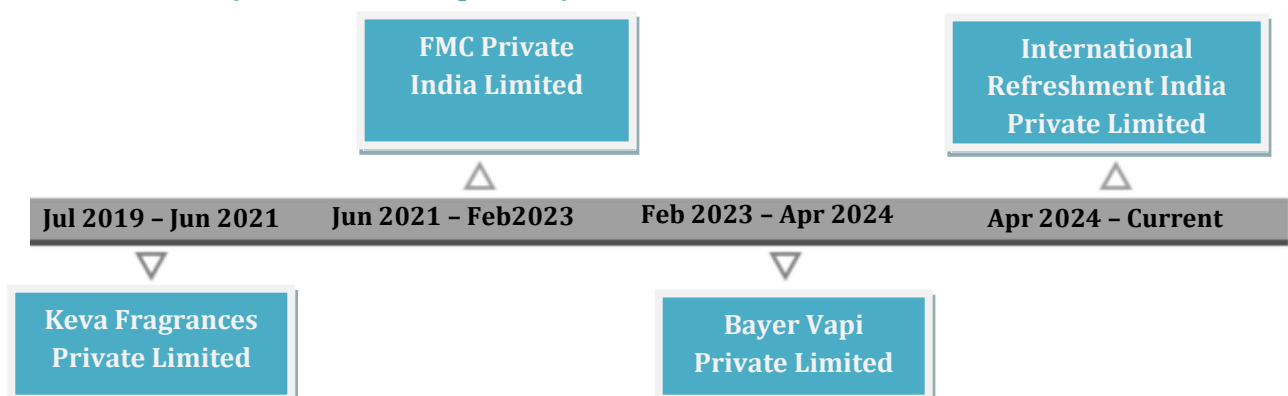

Executive Profile

- **Dynamic Quality Leader** with over 20 years of rich experience in Quality Control and Assurance, specializing in polymer, specialty chemicals, agrochemical, and F&F (Flavours & Fragrances) industries. Extensive expertise in the Food & Beverages sector, ensuring compliance with regulatory standards, product safety, and quality excellence.
- **Proven Expertise** in implementing and managing ISO certifications (ISO 9001, 14001, 45001, 22000), Kosher, Halal, and other quality standards across diverse operational units.
- **Strategic Quality Management** professional adept at setting & executing annual business plans, CAPEX/OPEX budgeting & driving operational excellence through continuous improvement initiatives.
- **Accomplished Project Manager**, experienced in laboratory setup, resource optimization, and risk management, ensuring seamless execution of governance and compliance frameworks.
- **Technical Proficiency in advanced analytical instruments** such as Gas Chromatograph, HPLC, FTNIR, UV-Visible Spectrophotometer, and Particle Size Analyzer, ensuring precision and reliability in product testing and development.
- **Skilled Trainer and Mentor**, capable of developing competency-based training modules, and building cross-functional teams.
- **Innovative Problem Solver** with a track record of resolving customer complaints effectively.
- **Proficient in Digital Transformation**, leveraging tools and techniques for process digitization and value creation in quality & safety functions.
- **Resilient Auditor and Compliance Specialist**, experienced in conducting internal and external audits, maintaining SOPs, and ensuring adherence to global safety, health, and environmental standards.
- **Ethics and Compliance Champion**, actively promoting awareness and adherence to corporate policies and industry regulations, driving integrity and trust in all operational aspects.

Education & Credentials

- MBA (Production & Operations Management) Perusing
- M.Sc. (Chemistry)
- Certified Lean Six Sigma Black Belt from IMC Institute – 2024

Career Timeline (Recent 4 Companies)

Core Competencies

Quality Assurance (QA)

Laboratory Management/Set-Up

Analytical Instrumentation

ISO Certification

Equipment Validation

Regulatory Compliance

Product Testing

Olfactory Evaluation

GLP/GMP/GDP

Customer Compliant Reduction

Soft Skills

Communicator / Collaborator

Flexibility

Empowerment

Problem Solver

Decision Maker

Professional Highlights

April 2024 – Current: International Refreshment India Private Limited (Coca-Cola Company), Ahmedabad, as QSE Lead

- **Strategic Leadership:** Established the strategic direction and annual business plan for the QSE function, aligning plant operations with CPS QSE strategies and business goals. Developed and achieved targets for key metrics, including water and energy use ratios, carbon emissions, total incident rate, product defect rate, and cost of poor quality.
- **CAPEX/OPEX Planning:** Directed capital and operational expenditure planning to optimize resource allocation and drive cost efficiency while maintaining high standards of food safety and quality.
- **Capability Building:** Enhanced team performance by participating in performance evaluation (PE) processes, managing QSE associates' development, and aligning their capabilities with evolving business needs. Allocated resources effectively for successful project execution.
- **Governance and Program Management:** Led cross-functional teams to implement and sustain ISO 9001, ISO 14001, ISO 18001, FSSC 22000, ISO/IEC 17025, and KORE standards. Ensured successful completion of audits, change management initiatives, and corrective action programs.
- **Continuous Improvement and Digitization:** Spearheaded initiatives to enhance operational excellence through digitization and value-creation projects, fostering innovation within the QSE domain.
- **Risk Mitigation:** Collaborated with stakeholders to proactively identify and mitigate risks related to quality, safety, and environmental regulations, ensuring business continuity and compliance with local standards.
- **Confidentiality and Compliance:** Ensured strict adherence to corporate policies on confidential information and compliance, safeguarding the plant's data integrity and operational standards.
- **Global Network Contribution:** Actively contributed to CPS network projects by supporting QSE work-stream teams, fostering collaboration, and developing leadership, technical capabilities, and operational competencies.

February 2023 – April 2024: Bayer Vapi Private Limited, Vapi, as Senior Manager Quality Control

- **Quality Assurance & Compliance** – Managed finished goods quality control, including sampling, analysis, SAP-based recordkeeping, and approval of analytical reports to ensure compliance with industry standards.
- **Customer-Centric Quality Management** – Coordinated batch allocations, issued Certificates of Analysis (CoA), and proactively reduced customer complaints and product rejections by swiftly addressing quality concerns.
- **Regulatory & ISO Compliance** – Led the documentation and implementation of ISO 9001, 14001, and 45001 standards, ensuring full compliance and seamless audit readiness for both internal and external assessments.
- **Health, Safety & Environmental Leadership** – Spearheaded GQHSE initiatives, promoted Behavior-Based Safety (BBS), and conducted safety audits (QHSE, P&PS, EHS) to uphold a risk-free and compliant work environment.
- **Equipment & Instrumentation Optimization** – Assessed instrument needs, aligned procurement with CAPEX budgets, finalized Annual Maintenance Contracts (AMCs), and ensured seamless preventive and breakdown maintenance.
- **Process Efficiency & Resource Optimization** – Streamlined finished goods activities to meet stringent delivery timelines, maximizing resource utilization and ensuring uninterrupted in-process production.
- **Customer Satisfaction & Risk Mitigation** – Achieved near-zero customer complaints by enhancing quality control measures, maintaining high product integrity, and ensuring proactive resolution of potential risks.
- **Operational Excellence & Safety Performance** – Delivered consistent health and safety target achievements, including zero incidents and adherence to LTRIR/RIR goals, fostering a culture of safety and operational excellence.

June 2021 – February 2023: FMC India Private Limited, Savli, as Quality & Laboratory Leader

- **Safety & Risk Management** – Led the implementation of comprehensive safety and environmental standards, significantly reducing workplace risks and ensuring full regulatory compliance in laboratory and production environments.
- **Quality Assurance Leadership** – Spearheaded product quality initiatives across manufacturing sites and contract manufacturers, ensuring adherence to regulatory standards and driving continuous quality improvements.
- **Regulatory & Compliance Expertise** – Served as the primary liaison with regulatory authorities and laboratories, resolving analytical specification issues and ensuring seamless product compliance and supply continuity.
- **Operational Excellence & Team Management** – Optimized laboratory operations by streamlining workflows, enhancing resource utilization, and developing team capabilities, leading to increased efficiency and productivity.
- **Continuous Improvement & Innovation** – Led lab-scale trials for new raw materials, formulation enhancements, and technology adoption, driving significant advancements in product quality and process optimization.
- **Strategic Budgeting & Resource Allocation** – Managed laboratory budgeting, procurement, and troubleshooting efforts for critical analytical instrumentation, ensuring cost efficiency and uninterrupted operations.
- **Methodology Development & Validation** – Developed and validated advanced analytical methods and quality control plans for raw materials and packaging, ensuring regulatory compliance and product integrity.
- **Ethics & Compliance Leadership** – Acted as the Ethics & Compliance Ambassador, fostering a culture of integrity and regulatory adherence through training, awareness programs, and alignment with corporate standards.

Previous Experience

- **July 2019 – Jun 2021:** Keva Fragrances Pvt. Ltd. as Manager QA/QC
- **July 2016 – July 2019:** Atul Ltd., Valsad, as Deputy Manager QA
- **November 2014 – July 2016:** Pidilite Industries Ltd., Vapi, as Section Head QC/QA
- **May 2012 – October 2014:** Asian Aerosol OAN Pvt. Ltd., Vapi, as QC In-Charge
- **January 2004 – April 2012:** Jesons Industries Ltd., Daman, as Senior Executive (Research & Development)

Instruments Handled

- Gas Chromatograph (GC)
- High-Performance Liquid Chromatography (HPLC)
- Fourier Transform Infrared Spectroscopy (FTIR)
- UV-Visible Spectrophotometer
- Particle Size Analyzer
- Halogen Moisture Analyzer
- Karl Fischer Titrator (KF Titrator)
- Minimum Film Forming Temperature (MFFT) Instrument
- Refractometer
- Friability, Dissolution, and Disintegration Test Apparatus
- Universal Testing Machine (UTM) – Tensile Strength
- Peel Strength and Bond Strength Machine
- 10-Bank Shear Holder Power Tester Machine
- Loop Tack Testing Machine
- Brookfield Viscometer

Personal Details

Date of Birth: 12thOct 1982

Languages Known: English, Hindi, Gujarati, & Marathi

Address: B-20, Solaris , Parnera Pardi, Valsad-396007
