SUMMARY

With a year of experience in food product development (NPD) in R&D, I have effectively formulated and delivered multiple food products including instant drink mixes, vegan desserts, seasonings, cold and hot sauces, squash and syrups, probiotic beverages, protein bars etc. My experience extends to flavour enhancement, shelf life improvement, ideal packaging recommendations and vendor evaluation for raw materials. In my previous experience I headed the R&D department with 3 team members under me and also was involved in client interactions and site visits which has helped me polish my communication and presentation skills.
