Objective

To secure a challenging role in reputable organization where I can apply my knowledge and skills, I learn from industry experts and contribute to innovative projects. Enthusiastic individual focusing on gaining practical experience in Research. Capable of supporting projects and tasks through strong analytical skills and creative problem-solving. Eager to contribute to team success and learn new processes.

Internship

- Genetic engineering internship
AICTE platform
Dec10 2024 - Feb 10 2025
Completed a compressive internship program in genetic engineering, focusing the application of genetic engineering in agriculture and medicine .
Successfully executed two case studies demonstrating expertise in genetic engineering and it's impact in various field.
Projects
Case study 1: Impact of GMOs in Agriculture (Bt cotton)
Case study 2: Successful gene therapy treatment (Spinal Muscular Atrophy)
Key Skills Developed:
 - Genetic engineering principle and application
 - Case study research and analysis
 - Data interpretation and reporting
 - Scientific writing and presentation
 - Critical thinking and problem solving

Projects

- To study the effect of plant growth promoting rhizobacteria and synthesized nanoparticles particles was coated on Solanum lycopersicum seeds to study their impact on growth and development(MSc Biotechnology:2024)**
Isolated plant growth promoting rhizobacteria and synthesized nanoparticles was coated with the solanum lycopersicum seeds to study their impact on growth and development
- Impact of work from home on the health of employee and children (BSc 2022)**
Conducted a survey to assess health issue and mental health challenges faced by individual during the pandemic.

Skills

- Good Laboratory Practices
- Good Manufacturing practices
- Standard operating procedure
- Instrumentation (Uv spectrophotometry, microscope , colorimeter)
- Aseptic techniques
- Microbiology
- Written and verbal communication skills

Certification/ Course

- Healthy lifestyle and neutrogenomics(July 2021)
- Digital marketing(Jan 2022)
- Good clinical practice(March 2024)
- Pharmacy Technician (March 2024)
- Implementation of HACCP food safety system in the Food Processing Industry(june2023)
- Pharmacovigilance and Aggregate Reporting(Oct2023)
- Clinical Data Management (June2024)
- Certified Associate in Project management(June 2024)
- Clinical Research Training (Oct 2024)
