Internship

AAVIN | Chennai |

June 2024 – July 2024

Familiar with milk preservation, butter preparation & ice cream production. Had a practical knowledge of milk production & working process of machines.

Well to know about the estimation of protein, fat, and SNF in milk, using different type of pasteurizer and packaging system employed in dairy industry.

Gained hands-on experience on GHP, GMP, GLP, and HACCP in aavin milk industry.

Sri Sarvaraya Sugars Limited (Coco Cola Franchise) | Vemagiri |

June 2022 – July 2022

Well to know about the sugar processing, by products, power generation unit, organic manure manufacture, distillery unit, beverages and R & D. Worked as HACCP, risk assessment, flow diagrams, GMP, hygiene protocols, and process-related SOPs.

Acquired in depth knowledge of unit operation in sugar processing and well to know about the food safety hygiene across all section (GHP) and proper storage of records and documents.

Gained hands-on experience in operating machine of food processing equipments.

Agriculture Engineering Department (AED) | Thanjavur |

Aug 2022- Sep 2022

Proficient on schemes available for irrigation, civil works, solar pump sets, farm machinery hire charges and subsidy system.

Acquired practical experience in using of paddy dryer machine, kubato harvester, and transplanter machine.

Glad to teach farmers in the application of agricultural equipment and machinery in the app.

Projects

Effects of hydrocolloid and black gram protein isolate on the properties of rice- pseudocereal based idli batter | LPU Punjab

Aug 2024 – May 2025

Extracted protein isolates from black gram using isoelectric precipitation method.

Developed protein rich rice-pseudocereal (Amaranth) idli by incorporating black gram protein isolates at varying concentrations (10%, 15%, 20%, and 25%), along with 0.5% xanthan gum.

Investigated the physiochemical properties of rice-pseudocereal fermented batter and conducted comprehensive quality and sensory evaluation of final idli product.

Dietary fiber and process interventions for enhanced batters and final baked products: A Review (with editor)

Aug 2024

This review reveals about the natural dietary fiber source and fermentation characteristics supplementation in batter products for improvement in the rheological properties and nutritional value of baked products.

Solar Powered Automatic Robovator |SRM Vec| Chennai

July 2022- Jan 2023

Using solar power, made a prototype model automatic robovator has been designed for cassava crop.

Through the GPS camera and Arduino uno it will be able to detect the weeds and automatically the rotary and spraying action of fertilizers are started to work.

Crop Health Monitoring Using Drone Technology| SRM Vec| Chennai

Jan 2022 – Apr 2023

Initially the field has been surveyed by an “Multispectral Image Sensor Drone,” Captured images are compressed by an “Quantum GIS Software.”

To develop an “Mobile Application,” Using analyzed health parameters for a particular crop. By sending signals to the farmers with the help of mobile application drone technology, the feedback will be analyzed for suitability.

Certificates

- FSSAI Regulations for Food Labelling and Display May 2025
- Advance Manufacturing and COVID FOSTAC Certification| FSSAI| March 2024
- Tractors and maintenance period by TAFE |Madurai | April 2022

- Developing and introducing region specific smart farming |SRM Vec |

Dec 2021

Publications

- Review article in “The Pharma Innovation Journal” with title of " Solar Powered Automatic Robovator “

Skill set

- **Domain Skills:** Quality control, Quality assurance, HACCP analysis, Crop inspection, Weed abatement
- **Technical Skills:** MS Windows (Word, Excel, Power point presentation), Basics in origin and matlab software, Minitab
- **Power Skills:** Values imaginative and innovation, Friendly, adaptable to work on any team, Empathetic and helpful in nature, Works independently in structured manner

Education

M Tech in Food Technology

Lovely Professional University | Phagwara, PB-79%

Aug '2023 – May 2025

BE in Agriculture Engineering

SRM Valliammai Engineering College |Chennai, TN-81%

Aug ' 2019 - Mar ' 2023

Higher Secondary

CEOA Matriculation Higher Secondary School | Madurai, TN-78%

Jun ' 2017 - Feb ' 2019

Secondary Education

CEOA Matriculation Higher Secondary School | Madurai, TN-94%

Jun'2016 - Mar '2017
