Professional Summary

Food Technology graduate with 5 years of diverse experience in the FMCG industry, including **production planning, operations, quality control**, and **new product development (NPD)**. Hands-on experience in managing day-to-day plant operations, ensuring product quality, supporting R&D trials, and coordinating cross-functional teams to meet production goals. Familiar with food safety standards and continuous improvement practices. Looking for a challenging role in the food or FMCG sector to contribute technical knowledge and drive product and process efficiency

PROFESSIONAL EXPERIENCE

Sriveda Sattva Pvt Ltd (Art of Living), Bangalore Operation & NPD

July'24 – Till Date

- Manage the complete New Product Development (NPD) process from idea to final product launch.
- Work closely with marketing, R&D, and production teams to ensure smooth coordination and high product quality.
- Plan project timelines and budgets, ensuring efficient use of resources and meeting deadlines.
- Follow all food safety regulations and conduct regular taste tests (sensory evaluations).
- Use market research to help design the right product strategy.
- Develop new recipes focusing on taste, nutrition, and functionality.
- Maintain strong quality control during all stages of production.
- Analyze product costs and sales trends to suggest improvements for better product success.
- Oversee daily plant operations, ensuring smooth production flow and on-time delivery.
- Monitor production KPIs, resolve operational issues, and drive process improvements.
- Handle 20+ third-party manufacturing units (3Ps), ensuring quality standards, production planning, and timely supply.
- Coordinate with 3P vendors for raw material planning, dispatches, and compliance with company guidelines.

Achievements

- Successfully launched multiple **Home Care & Personal Care products** such as **Neem Floor Cleaner, Toilet Cleaner, Shampoo, Body Wash, and Fragrances**.
- Successfully introduced new **Food Products** including **Ojas Vita (Health Drink), Jaggery Powder, and Staple Food Items**.
- Handled a **government tender from National Ayush Mission**, contributing to business growth and brand presence in the healthcare segment.

Assistant Manager Production Operation Lal Sweets Ltd, Bangalore Dec21 – Jul24	• Created and managed daily production plans based on purchase orders from multiple vendors, ensuring smooth production flow and on-time delivery. • Efficiently allocated manpower as per daily production needs, improving resource utilization and boosting line productivity. • Monitored and ensured that production lines achieved their expected output and performance targets. • Performed daily quality checks on sweets and namkeen products using visual inspection and taste testing to maintain consistent product quality. • Implemented and maintained 5S practices on the shop floor to ensure cleanliness, organization, and efficient workflow. • Used the Oracle system to manage production data, track inventory, and support day-to-day operations more effectively. • Coordinated with departments like quality, maintenance, and logistics to update standards and improve systems for better results in KPIs such as speed, cost, safety, quality, and delivery. • Coordinated with the procurement team to ensure timely availability of raw materials like flour, sugar, ghee, oil, and spices, avoiding production delays. • Maintained daily production and quality records, helping in batch traceability and audits. • Supported packaging operations by ensuring correct labelling, pack sizes, and hygiene standards as per FSSAI guidelines. • Assisted in trial runs for new product variants and seasonal launches like festive sweets and new flavors of namkeen. • Trained new workers on hygiene, safety, and standard operating procedures to maintain quality and reduce errors on the shop floor
Achievements	• Developed and launched innovative sugar-free sweets including Soan Papdi and Kaju Katli expanding the product range for consumers. • Introduced a range of bakery products such as Fruit Cookies, Jeera Cookies, and Cake Toast, adding value to the product portfolio. • Successfully led the setup of a new namkeen production line, launching popular items like Bombay Mixture, Butter Murukku, Kodu bale, Garlic Mixture, and Cornflakes Mixture.

Mayur Roller Flour Mill, Guwahati Production Incharge (Aug20-21)	- Monitored daily production metrics such as output, downtime, and wastage to identify areas for continuous improvement. - Prepared shift-wise production reports and maintained documentation for audits and internal reviews. - Coordinated with the quality team to test raw materials and finished goods, ensuring they meet required specifications and standards. - Trained shop floor staff on SOPs, hygiene practices, and equipment handling to improve operational efficiency and reduce human error. - Managed inventory of raw materials and packing materials, ensuring timely availability and proper stock rotation (FIFO/LIFO). - Assisted in planning for seasonal demand spikes and supported the ramp-up of production accordingly. - Worked with the logistics and dispatch teams to ensure timely shipment of finished goods without delays. - Participated in internal and external audits (e.g., FSSAI, ISO), ensuring readiness and compliance with regulatory requirements.
Achievements	Increased overall plant efficiency by 20% by improving manpower planning, reducing downtime, and streamlining production workflows.

	- Maintained smooth production with zero machine breakdown days in key months by doing regular maintenance. - Helped increase product output by managing manpower and shift planning more effectively.
